The international summer school is funded by the Alfried Krupp von Bohlen und Halbach-Stiftung, Essen, and by the Federal Government Commissioner for Culture and Media (BKM) by resolution of the German Federal Parliament.

The Alfried Krupp Wissenschaftskolleg is an academically independent institution sponsored by the Stiftung Alfried Krupp Kolleg Greifswald.

The Greifswalder Polonicum was founded in 2011 as an international summer school for Polish culture, literature and language. It addresses primarily advanced international students of Polish Studies.

The participants will get the opportunity to deal with a variety of topics such as contemporary Polish literature or processes of change in Polish culture on an academic level. One main focus is the connection between cultural issues and changes in civil society. We, therefore, enrich the program with public lectures and other events introducing political and historical contexts.

The summer school is also part of the extra curriculum in Polish Studies of the University of Greifswald, also named „Polonicum“, which offers the possibility of acquiring an additional qualification in language practice, literary and cultural studies as well as linguistics within two semesters.

The Alfried Krupp Wissenschaftskolleg is an academically independent institution sponsored by the Stiftung Alfried Krupp Kolleg Greifswald. The Institute is intended to assist outstanding research and realize projects in interdisciplinary and international co-operation.

The initiative to establish the Alfried Krupp Wissenschaftskolleg came from the former Chairman of the Board of Trustees of the Alfried Krupp von Bohlen und Halbach-Stiftung, Professor Dr. h. c. mult. Berthold Beitz. Professor Beitz associated this initiative with the idea that an institute for advanced study in the Hanseatic and University city of Greifswald could assist Greifswald to become once again the „liberal, cosmopolitan centre for encounters in the Baltic Sea region“ that it used to be for centuries. The Alfried Krupp Wissenschaftskolleg is committed to this goal and Alfried Krupp von Bohlen und Halbach's conviction that it is „a moral duty to enable one's neighbours to participate actively in the progress of knowledge“.
